

PUBLIC ALERT - SLIMFIT MINERAL WATER

FDA/CSD/CPE/PRS/24/0001

19th January 2024

The attention of the Food and Drugs Authority (FDA) has been drawn to the circulation of a pictorial image of an unregistered bottled mineral water, **SLIMFIT mineral water**, on the Ghanaian market.

The brand registered by the FDA is **SLEMFIT (mineral water and purified water)** produced by the Twellium Industrial Company Limited.

The FDA wishes to assure the public that its surveillance teams are monitoring the markets to remove the unregistered **SLIMFIT** mineral water from trade and also to find the producers and distributors.

The FDA takes this opportunity to advise the public not to patronise unregistered products as their safety and quality cannot be ascertained. Therefore, this publication is urging all consumers to be vigilant when buying packaged products and report any suspicious products to the FDA for the necessary regulatory action to be taken.
